[FIRST DRAFT]
2020 Time Series
Pre-Election Questionnaire

November 9, 2020

This draft questionnaire is being provided so that the ANES user community is informed as to the questions that appeared in the pre-election survey for the ANES 2020 Time Series study.
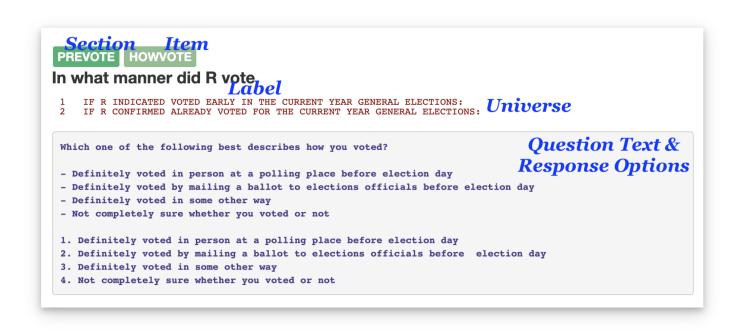

Please note that the draft questionnaire is a preliminary version and lacks some of the quality control and documentation that will benefit future versions of the questionnaire.

When reviewing the questionnaire, please keep in mind that:

- Some items in the questionnaire are labeled as being for the "face-to-face (FTF)" mode. However, in-person interviewing was not used in the 2020 study, due to the COVID-19 pandemic, and references to "FTF" should be instead be interpreted as being the "interviewer-administered" mode (that is, by videoconference or telephone).

- The questionnaire focus is on the interviewer-administered version of the questionnaire. However, questions were modified as necessary to accommodate other modes such as online interviewing. An example of such a modification would be removing references to participant/respondent booklets.

- Except for the CASI (Computer-Assisted Self-Interview) section and some open-ended items, interviewers in the interviewer- administered mode could accept "don't know" options from respondents.

- Because the interviewer-administered instrument was conducted by phone and videoconference rather than in person, the CASI section was also administered directly by the interviewer with all questions read aloud and all answers also provided aloud directly from the respondent to the interviewer.

- The draft questionnaire provides section and item names to uniquely identify the questions that were asked in the pre-election study, but the variable names that will appear in the dataset when the data are eventually released will be named differently.

- Unless the label for a question indicates otherwise, the question was asked in all survey modes (web, phone, and videoconference).

We hope you find this draft questionnaire to be useful. We would appreciate being notified of any errors by email to: anes@electionstudies.org.

Thank you!

INTRO PRE-ELECTION POLITICAL FIGURE THERMOMETERS

Please look at page ^prepg_c of the booklet.

I'd like to get your feelings toward some of our political
leaders and other people who are in the news these days. I'll
read the name of a person and I'd like you to rate that person
using something we call the feeling thermometer.
Ratings between 50 degrees and 100 degrees mean that you feel
favorable and warm toward the person. Ratings between 0 degrees
and 50 degrees mean that you don't feel favorable toward the
person and that you don't care too much for that person. You
would rate the person at the 50 degree mark if you don't feel
particularly warm or cold toward the person.
If we come to a person whose name you don't recognize, you don't
need to rate that person. Just tell me and we'll move on to the
next one.
